WASATCH DIVISION
POWER RIGHTS.

-110-

The waters of Provo River and its tributaries appropriated by the defendants and their predecessors in interest, for the generation of power, in the Wasatch Division, which each of said parties are the owners of the right to the use, from January 1st to December 31st, inclusive, of each and every year, and herein denominated "Wasatch Division Power Rights", and the same is herein awarded to and decreed as follows:

-111-

Utah Power & Light Company:

(a) The defendant the Utah Power & Light Company, under application to the State Engineer of the State of Utah, number 3097, bearing date of April 1, 1910, for 25 second feet of water for power purposes, from Snake Creek and Lavina Creek, the same being tributaries of Provo River, and having completed said appropriation and made final proof thereof and recieved from the said State Engineer on the 14th day of April, 1916, the certificate of completion of appropriation for 25 second feet of water, is awarded said 25 second feet of water or such portion thereof as may be available from year to year and time to time under the terms of the said certificate of completion of appropriation.

(b) The said defendant the Utah Power & Light Company, under application to the State Engineer of the State of Utah, number 3621, bearing date of November 21, 1910, for 200 second feet of water for power purposes, from Provo River, and having completed said appropriation and made final proof thereof and recieved from the said State Engineer on the 11th day of November, 1916, the certificate of completion of appropriation for 180 second feet of water, is awarded said 180 second feet of water or such portion thereof as may be available from year to year and time to time under the terms of the said certificate of completion of appropriation.

Neils J. Johnson:

The defendant Neils J. Johnson, is awarded the right to the use of the waters of the springs commonly called and known as the Burcumshaw Springs and sufficient of the waters of the Provo River to aggregate 15 second feet, or such portion thereof as may be available from year to year and time to time; the same to be used for the generation of power at that certain flour mill known as the Peoples Roller Mill, situate on lands owned by said defendant in section 35, township 3 south, range 4 east, Salt Lake Meridian, after said use the said waters are to be returned to Provo River above the intake of what is known as the Island Ditch.

Joseph R. Murdock:

The defendant Joseph R. Murdock, is awarded the right to the use of 50 second foot of the waters of Provo River, or such portion thereof as may be available from year to year and time to time, the same to be used for the generation of power to be diverted through the Charleston Irrigation Company's lower canal as now located, and conveyed by means of said canal and a head-race leading therefrom to the power site of said defendant, situated near the section line between section 11 and 14, township 4 south, range 4 east, Salt Lake Meridian, after said use the said water to be returned to Provo River near said power site.

Heber City, a municipal corporation,
Midway Town Corporation,
and Town of Charleston;

The defendants Heber City a municipal corporation, Midway Town Corporation, and Town of Charleston doing business under the firm name of Heber Light & Power Plant, as assignee and successor in interest of Abram Hatch, under application to the State Engineer of the State of Utah, number 1584, bearing date of September 18, 1907, for 150 second foot of water for power purposes, from Provo River, and having completed said appropriation and made final proof thereof and received from the said State Engineer on the 6th day of September 1913, the certificate of completion of appropriation for 150 second foot of water, is awarded said 150 second foot of water or such portion thereof as may be available from year to year and time to time under the terms of the said certificate of completion of appropriation.

The "Wasatch Division Power Rights" as aforesaid, use for the generation of power waters that are thereafter diverted and used for irrigation and other beneficial purposes, and that such use by said defendants for the generation of power is an additional use of waters hereinbefore awarded to parties hereto for irrigation and other beneficial purposes, and such use by said defendants for the generation of power is subject to and shall not interfere with the use of said water for the purposes of irrigation as hereinbefore designated, and

All of such waters used by the said defendants for the generation of power, must be so used as to not substantially interfere with the natural flow of such water and thus cause substantial fluctuations in the flow thereof, and said defendants must use such water without substantial diminution in quantity or any deterioration in quality.

GENERAL PROVISIONS CONCERNING

RIGHTS AND ADMINISTRATION.

-116-

It is further ordered, adjudged and decreed, that for the purpose of maintaining the volume of flow of Provo River available for use of the parties, and to maintain to the parties hereto the respective rights herein awarded and decreed, none of the parties shall change the place of use of said water so as to cause the seepage or drainage therefrom to be diverted away from the channel of said river, or canals, or from the lands heretofore irrigated thereby.

-117-

It is further ordered, adjudged and decreed, that the storage waters, the Ontario Drain Tunnel Waters, and the waters diverted from the Weber River watershed, turned into and comingled with the waters of Provo River, shall bear each its respective loss by evaporation and seepage, and shall bear each its respective proportion of the cost of distribution and administration of the orders of the Court and the Decree herein, and;

That the Court will retain original jurisdiction of this cause and the subject matter thereof, to from time to time, determine and fix the quantity of loss by evaporation and seepage of such waters, and;

That, until the further order of the Court, the said storage waters shall bear four per cent of their quantity for loss by evaporation and seepage.

-118-

It is further ordered, adjudged and decreed, that excepting storage waters, Ontario Drain Tunnel waters, waters diverted from the Weber River watershed, the waters used for the generation of power in the Wasatch Division, and denominated "Wasatch Division Power Rights", the waters used for the generation of power in the Provo Division by the Utah Power & Light Company, the waters of the Midway Waterworks Company, and the waters for domestic and municipal uses of Provo City as set out in subdivision (e) paragraph 4; whenever the quantity of water is insufficient to supply a class, then the persons and parties entitled thereto shall have the same distributed to them pro rata according to the quantities to which they are entitled in said class.

-119-

It is further ordered, adjudged and decreed, that except as to storage waters, the Ontario Drain Tunnel waters, and the waters diverted from the Weber River watershed, the parties herein named are entitled to the right to the use of the waters of said Provo River in the classes in which they are named in each of said divisions, and no class or party in said class shall use any of such water so long as the water flowing in said river and in the canals is insufficient to supply the preceding classes with the quantities of water to which they are entitled as hereinbefore stated.

It is further ordered, adjudged and decreed, that the plaintiff and the defendants having the right to store water in their several reservoirs, as hereinbefore stated, have the right to release said waters in the quantities and at such times as they may elect, and to comingle the same with the waters of Provo River, and then be taken out less the losses by evaporation and seepage.

- (a) It is further ordered, adjudged and decreed, that, the First, Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth, Fifteenth, Sixteenth, and Seventeenth Classes in the First and Second Districts of the Wasatch Division shall receive their whole supply, when available and present, in said classes as hereinbefore stated, before other rights.
- (b) Whenever, between May 1st and June 25th of any year, the quantity of water in said river and the canals of the parties hereto, in the First and Second Districts of the Wasatch Division is insufficient to supply the two districts, above named, with the full quantity of the waters denominated as the Seventeenth Class, the said First District shall have the right to its full quantity of said Seventeenth Class before the said Second District.
- (c) That, the First Class in the Third District of the Wasatch Division, shall receive their whole quantity in said class, as hereinbefore stated, before the rights in the Provo Division.
- (d) That the defendants hereto, in the Provo Division, shall receive their whole quantity, as hereinbefore stated, and the plaintiff shall receive one second foot of water per seventy acres of land, before the Seventeenth Class of the Third District of the Wasatch Division,

- (a) It is further ordered, adjudged and decreed, that for the purpose of equitably dividing and distributing the waters of said river so that the parties may receive for use the quantities of water hereinbefore specified and to which they are entitled, awarded and decreed, at the heads of their distributing laterals the quantity and volume of the canals and ditches that carry one irrigating stream, and as such is a distributing lateral, shall be determined and ascertained by weirs or other proper measuring devices located above and as near as practicable the place where the first user of water diverts from said canal or ditch.

(b)

And For the purpose of equitably dividing and distributing the waters of said river so that the parties may receive for use the quantities of water hereinbefore specified and to which they are entitled at the heads of the distributing laterals the quantity and volume of the canals of the Surprise Irrigation Company, South Kamas Irrigation Company, Washington Irrigation Company, Timpanogus Irrigation Company, Wasatch Irrigation Company, North Field Irrigation Company, Charleston Irrigation Company, Pioneer Irrigation Company, Murdock-Allen Ditch, Allen-McAffee Ditch, Timpanogus Canal Company, Provo Bench Canal & Irrigation Company, West Union Canal Company, Lake Bottom Canal Company, Upper East Union Irrigation Company, Little Dry Creek Irrigation Company, and Provo City's Factory Race, Tanner Race, City Race, and East Union, and also during the period of September 15th to July 5th of the succeeding year the Spring Creek Irrigation Company and Sage Brush Irrigation Company, shall be determined and ascertained by weirs or other proper measuring devices located above the place where the first use of water diverts from said canal and weirs or other proper measuring devices located in and near the heads of the distributing laterals. The quantity of loss or gain between the main station on the canal and the heads of the distributing laterals shall be determined by the Commissioner with the system in good working order and repair and in such condition as will reduce the losses to the lowest quantity practicable.

Where the flow in the canal is diminished by conditions that cannot be reasonably avoided, between the main station on the canal and the heads of the distributing laterals, the quantity at the main station on the canal shall be such that the quantity to which the parties are entitled as hereinbefore specified will be delivered to them at the heads of the distributing laterals.

In the case the flow of a canal is increased, such increase shall be counted as a part of its respective quantity, and the quantity at the main station on the canal shall be such that the quantity to which the parties are entitled as hereinbefore specified will be delivered to them at the heads of the distributing laterals.

Only the quantity of increase that is available to the lands of a canal system as determined by the Commissioner shall be counted as part of the quantity of increase as herein provided. The Allowable losses shall include only the actual, reasonable, unavoidable transmission losses, and shall extend over the section of the canal that carries more than one irrigating stream continuously.

-123-

It is further ordered, adjudged and decreed, all persons and corporations, parties to this action, shall respectively construct or cause to be constructed at their own expense and under the direction and supervision of the water Commissioner appointed by the Court proper appliances for the diversion and accurate measurement of the waters awarded to them respectively; and thereafter shall maintain and keep in place all dams, head-gates, flumes, canals and other means by which water is diverted, conveyed or used, in a good state of repair, together with appliances for the diversion and measurement of said water; to the end that no unnecessary loss from seepage or leakage shall occur, and that the water shall be economically applied to the use for which it is awarded.

It is further ordered, adjudged and decreed, that all the rights awarded herein are founded upon appropriations of water necessary for some beneficial use, and all such rights are subject in their exercise to the conditions that they are required and necessary for some beneficial use; and all such rights are expressly subject to the limitations and conditions that all of such water is used for some beneficial purpose, and is used economically, without waste, and with due care, and is reasonably necessary for such use.

It is further ordered, adjudged and decreed, that each and all of the parties to this action, and their successors and assigns, and they, and each of their agents, servants and employees, and all persons acting for them, or in their interests are forever enjoined and restrained from in any manner, or at all interfering one with the other in the full, free and unrestricted use of the quantity of the waters of said river awarded to them, and from in any manner, or at all, interfering with the distribution of such water by the Commissioner to be appointed by the Court.

It is further ordered, adjudged and decreed, that for the purpose of the proper distribution of the waters awarded herein and for the accurate and equitable division and distribution of the same, among the parties entitled thereto, and for the purposes of carrying into effect this decree in all its details, this Court will hereafter appoint a Commissioner with full power and authority to measure, control, regulate and distribute the said waters among the parties to this action as herein awarded; and from time to time to construct or require to be constructed such dams, weirs and appliances as are necessary to the equitable and economical distribution thereof.

The said Commissioner shall use due diligence and discretion to give the parties hereto the maintenance and development of the Provo River, and shall use his discretionary authority to maintain and develop said river, and to advance and maintain the crop production that is dependent upon said river.

It is further ordered, adjudged and decreed, that said Commissioner appointed by the Court shall hold his office until his successor shall have been appointed and qualified.

Said Commissioner shall receive a salary of Three Thousand dollars per annum together with reasonable allowance for office rent, stationery, postage, telephone service, and actual and necessary traveling expenses, payable in quarterly installments by the Clerk of this Court from money deposited by the parties for that purpose.

It is further ordered, adjudged and decreed, that assistants to the Commissioner shall be employed by the Commissioner upon the approval of the Court, and shall receive compensation for the time employed in the same manner as provided for the Commissioner; and care-takers at the reservoirs shall be employed and shall be under the direction of the Commissioner and shall make reports from time to time to the Commissioner as directed by him. Such Care-takers shall be paid in the same manner as provided for the compensation of the other assistants to the Commissioner, from money deposited by the owners of the reservoirs for that purpose..

It is further ordered, adjudged and decreed, that the basis of assessment to the respective parties for the expenses of administration shall be a fixed ratio annually, and the respective amounts due from each party are payable quarterly, and within ten days after receipt of notice of the amount thereof.

Upon failure to pay the same within ten days after notice thereof, said Commissioner is authorized to withhold further distribution of waters to the users so in default until the same shall be paid.

It is further ordered adjudged and decreed, that the proportion of the total assessment to be borne by each of the respective parties using water for irrigation is to be fixed by the product of the area of land irrigated as set out herein multiplied by the length of the season of use, divided by the duty of water on the 15th day of July. The duty of water shall be determined by using the area of land and the volume of water as awarded herein. The length of the season of use to serve the purpose of the foregoing computation is fixed as follows: First Class Rights in the Wasatch Division, 130 days; Second to Seventeenth Class Rights, inclusive, 90 days; Class "A" Rights in the Provo Division, 165 days; Class B, C, D, E, F, G, H, I, and J in the Provo Division and Classes Eighteen and Nineteen in the Wasatch Division, 60 days and using the average volume of flow over this period.

The assessment to the power users shall be as follows:

Utah Power & Light Company - - - - -	\$15.00 per month.
Heber City, Midway Town Corporation, and Town of Charleston, doing business under the firm name of Heber Light & Power Plant - -	\$5.00 " "
L.L. Donnon, power right, - - - - -	\$0.75 " "
Joseph R. Murdock, power right, - - - - -	\$1.50 " "
Neils J. Johnson, power right; - - - - -	\$0.55 " "
Joseph Hatch, Abram C. Hatch, Minnesota A. Dodds, Jane H. Turner, and Lucy Farnsworth, Power right, - - - - -	\$0.75 " "

The assessment of Provo City for its power rights along the Factory Race, together with the Provo Pressed Brick Company for its Brick Plant power right, is to be fixed by the quantity of Class "A" water herein awarded to this use multiplied by 165; this product to be used in computing the assessments the same as the figures derived for the computation of the irrigation assessments, 1/5 of said assessment to be paid by the Provo Pressed Brick Company and 4/5 by Provo City.

The assessment of Provo City for its municipal water supply is to be fixed by the quantity of water actually flowing in its system at its Spring Dell weir in Provo Canyon on the 15th day of July, multiplied by 165. This product is to be used the same as provided for the power rights above. Since the flow of water on the date specified varies one year with another, the assessment for each year is to be fixed by the measurement made on the 15th day of July of that year.

-131-

It is further ordered, adjudged and decreed, that the Commissioner is hereby directed to distribute the waters herein awarded in the most economical way to prevent waste. And if it shall appear that by combining the flow of a number of parties, and giving each of them an equivalent quantity with a proper sized irrigating stream for a period of time at reasonable intervals, commonly called the rotation system thereby effecting a saving of water and at the same time meeting the full necessities of the users, said Commissioner is directed to so distribute said water.

Any party may at any time petition this Court to modify or change the method of distribution of the quantity of water herein awarded upon written application to the Court, and said application may be heard upon affidavits or oral testimony as the parties may elect.

-132-

It is further ordered, adjudged and decreed, that any party to this action or his successor in interest who is dissatisfied with any of the regulations, requirements, discretionary acts of control in the distribution, or orders of the Commissioner, may apply to the Court for a review thereof and for relief therefrom.

-133-

It is further ordered, adjudged and decreed, that each party shall pay his costs and his witnesses. And that the costs for the preparation of findings and decree, and the costs of entering this decree and all other court costs, shall be paid by the parties hereto in the same ratio and in the same manner as provided for the payment of the Commissioner and the expense of distribution and administration as hereinbefore provided.

-134-

It is further ordered, adjudged and decreed, that this Court shall, and does retain original jurisdiction of this cause and the subject matter thereof and all the parties thereto, their successors and assigns, for the purpose of from time to time making such further orders, rules and regulations as are necessary for the regulation, control and distribution of said waters according to the terms of said decree, and for the purpose of compelling by further decree or otherwise the construction of such improvements, dams, weirs and appliances as may from time to time be found necessary or expedient for the proper carrying out of the terms of said decree and for the equitable and economical distribution of said waters, and for the further purpose of compelling the payment of such sums by either or any or all of the parties hereto for the costs and expenses of improvements and the distribution of said waters, and the compensation of said Commissioner, as may by the Court seem just and equitable, and for the further purpose of carrying the terms and provisions of said decree into full force and effect.
